"SOLAR CITY SIGHTS" at Jahroc Galleries 5th July

Anthony Breslin is a prominent Australian visual and performance artist. He graduated with a Fine Art degree from RMIT University in 1999; completed a residency at New York's exclusive and prestigious Point B Studios in 2007; and was the recipient of the International Award for Emerging Artists at the 2008 Shanghai Art Fair. Breslin's work has been showcased in solo and group shows in Australia, the US, the UK, Switzerland, the Czech Republic and China, and his most famous works include Trybe: An Opera in Paint and a windowdisplay installation commissioned by Myer on Bourke Street, Melbourne. Breslin has also worked as a designer/art director for music videos, of which one was awarded an Aria and another nominated for Best Design at the AFI Awards, and he has been featured in a number of art magazines and newspapers. Recently he has been working on large-scale performance and installation projects at schools in Victoria and NSW.

Darts, pencil sharpeners, train tracks, balls, toothpaste tubes, jigsaw pieces, and a myriad of other objects simultaneously meld together and leap out from Breslin's canvases demanding immediate attention. Whether it is the fantasy world he creates in the bazaar landscapes of his "abstracts" or the unnerving introspection of his heads and figures or even the cheeky playfulness he captures in his bugs and frogs, there is always something more than enough in his compositions to inspire, provoke, challenge and delight everyone from young children to serious art aficionados.

Do yourself a favour, don't miss seeing this show in the real.

A taste from Gary Bennett and David Paris

So much of our furniture is custom made especially for our clients, which means it never makes it onto the gallery floor for everyone to see. Here are a few pieces we have made recently.....

It seems people are liking all things square at the moment!

If you are after something specially designed for your space then we can do it for you. We have loads of pictures to show you of furniture we have made over the past 26 years. Hard to believe it's been 26 years since Jahroc Furniture was born isn't it?
