## ARTIST STATEMENT

"My heart was racing with the sheer joy of living in the moment, of letting go and floating in the magic of just being, no reservations, no predictions, provisos, distractions, no rules, just totally absorbed.

In my latest body of work I have taken time to reflect on these moments that punctuate our every day and celebrate their grandness. The intoxicating bliss of being totally in love, the giddiness of flirting with something or someone new, the honesty of watching the world around us and giving gratitude of being part of it.

Life is there to be lived.....experience it....come what may!!" *Janine Daddo*
