## **"Dunes and Shorelines"**

Are you dreaming about the warm sunshine radiating welcoming heat into your chilled winter bones? Are you counting down the days till you can walk on the warm sand in bare feet and plop into the warm summer ocean? Well lets face it - that is not going to happen around here for a few more months, so we have to turn to other means to satisfy this desire.

When standing in front of **Kerry Nobbs** paintings you can actually feel the warmth of the sun hitting the sand dunes, you can hear the gentle lapping of the waves and you can visualize yourself on the pristine, deserted beach, with not a care in the world.

Wow, wouldnt it be nice to create that feeling in your home!!!

"The movement and reflections in the water and the light and shadows of the sand have laid down the basic fundamentals to each painting. I enjoy the ever changing landscape and find new paintings, with every visit to the West. This is my second feature show with Jahroc Gallery and I hope the viewers can see and feel what I have brought to the canvas"

## Furniture prices on our website and Buy Online

We have broken down all barriers, and completely exposed ourselves online!

After resisting for years, thinking we are not an online business, we thought "lets give it a go, we have nothing to loose and everything to gain"

So, next time you are looking for a piece of art and/or furniture - you will have the option to buy it then and there online rather than waiting till the next day.

Go on - give it a go! (we would love you to)

We would also welcome feedback - if it is an easy process or a bit complicated - we would love to know your thoughts.

Our customers are loving our Filigree Dining Chairs and they look fantastic with all table designs. Most importantly they are VERY comfortable.
